**Some things I will learn during this topic:**

- I will identify Wakefield on a map.
- I will identify a non-European country on a map.
- I will study a small area in a contrasting non-European country (St Lucia in the Caribbean)
- I will find out what it is like to live in this place.
- I will describe what it is like in terms of places, environments, landscape, jobs, weather, daily activities of people and express my views.
- I will use maps of the area to identify key features.
- I will use a range of secondary sources of information to investigate this place.
- I will compare the human and physical geographical similarities and differences of their local area to that of this contrasting locality.
- Understand how people impact on their environment in this contrasting locality (for example pollution, littering) and what they might do to improve it.
- Understand how the environment may be improved or sustained in our local area.
- Use of aerial photographs and secondary sources ongoing throughout the key stage (for example, aerial photographs of the school and its grounds, internet, pictures, photographs).
- Maths link- Reading thermometers.
- I will learn about the St Lucia Carnival through multiple sources including our class book.
